WARNING ⚠

To prevent fire or injury: remove all packaging before use. Use only in a tealight warmer or a UL-listed electric warmer made for wax melts, and follow the warmer's instructions. Never leave a warmer unattended while in use. Keep wax and warmers away from children and pets. Wax melts are not edible.

HOW TO USE

Never add water or fragrance oil. Never light the wax or melt it on a stovetop or in any other appliance. Use in a well-ventilated area, away from flammable materials. Stop when less than ½ inch of wax remains in the dish.
